TOTAL.....	\$2,500,000.00

Note: Durand - Arkansaw School District is contributing \$1 Million.

-The tennis courts will be relocated to the Durand Middle School/High School site.

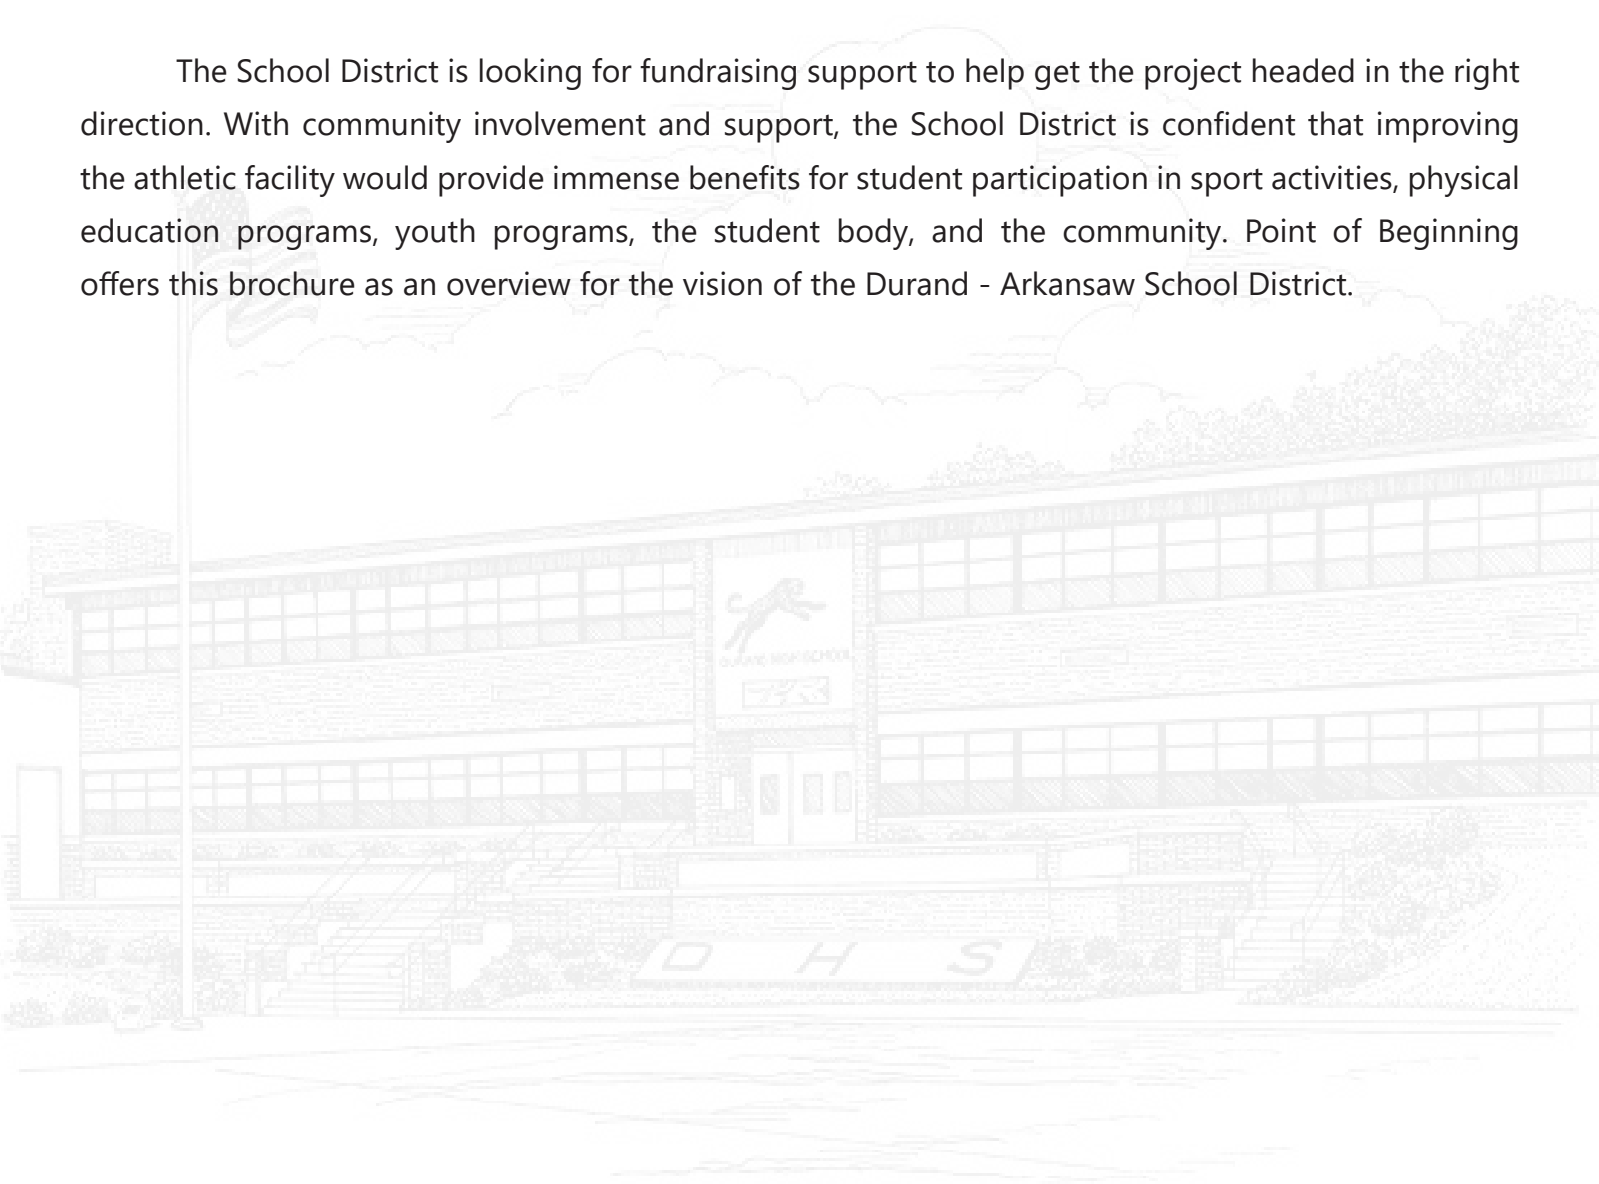

Introductory

Durand - Arkansaw School District

The Durand - Arkansaw School District is in need of a long term athletic facility. The overall layout and amenities will improve the functionality of the site based on projected future development and restore the facility to what it once was.

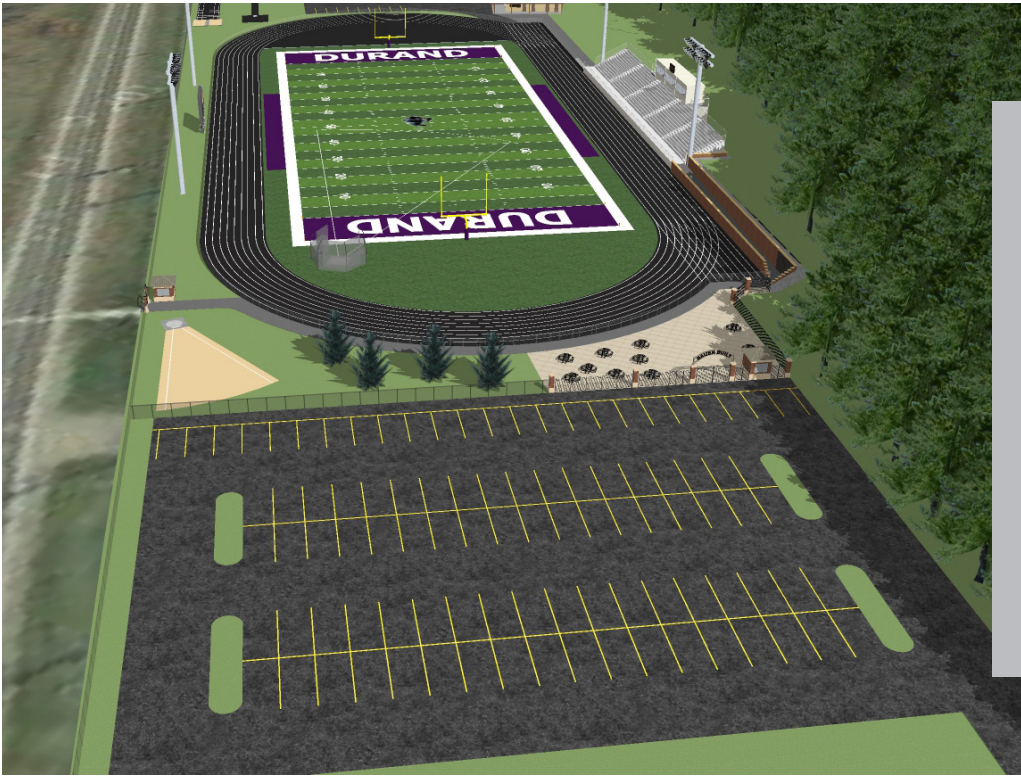

Notable features of the master plan will include a new synthetic turf football stadium and track, plaza area, main entry area, new field events, expanded parking lot, and bleacher addition.

The School District is looking for fundraising support to help get the project headed in the right direction. With community involvement and support, the School District is confident that improving the athletic facility would provide immense benefits for student participation in sport activities, physical education programs, youth programs, the student body, and the community. Point of Beginning offers this brochure as an overview for the vision of the Durand - Arkansaw School District.

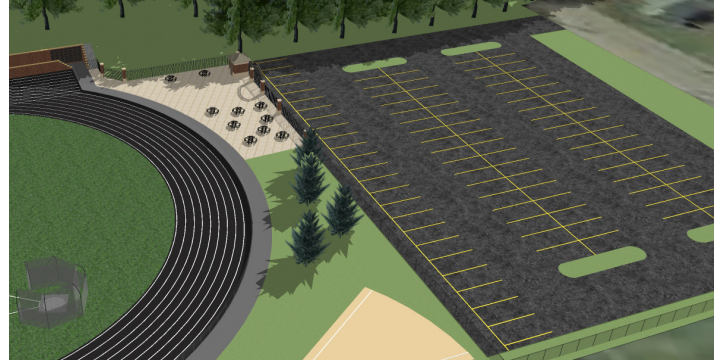

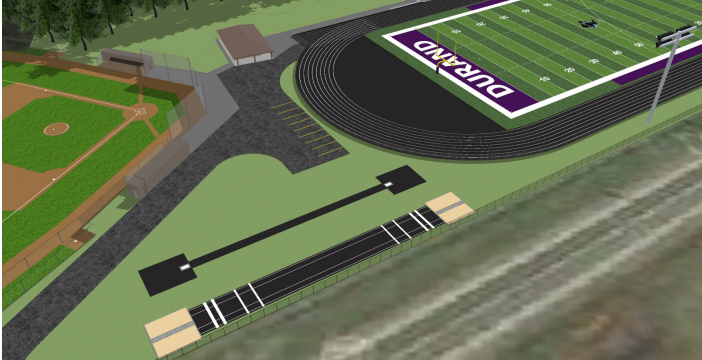

Overall Site

Durand Middle / High School Athletic Facility

The project consists of multiple improvements for the school district, including parking, a gated entry way & ticket booth, synthetic turf stadium field, eight-lane running track, increased home/visitor spectator seating, and revised field events layout.

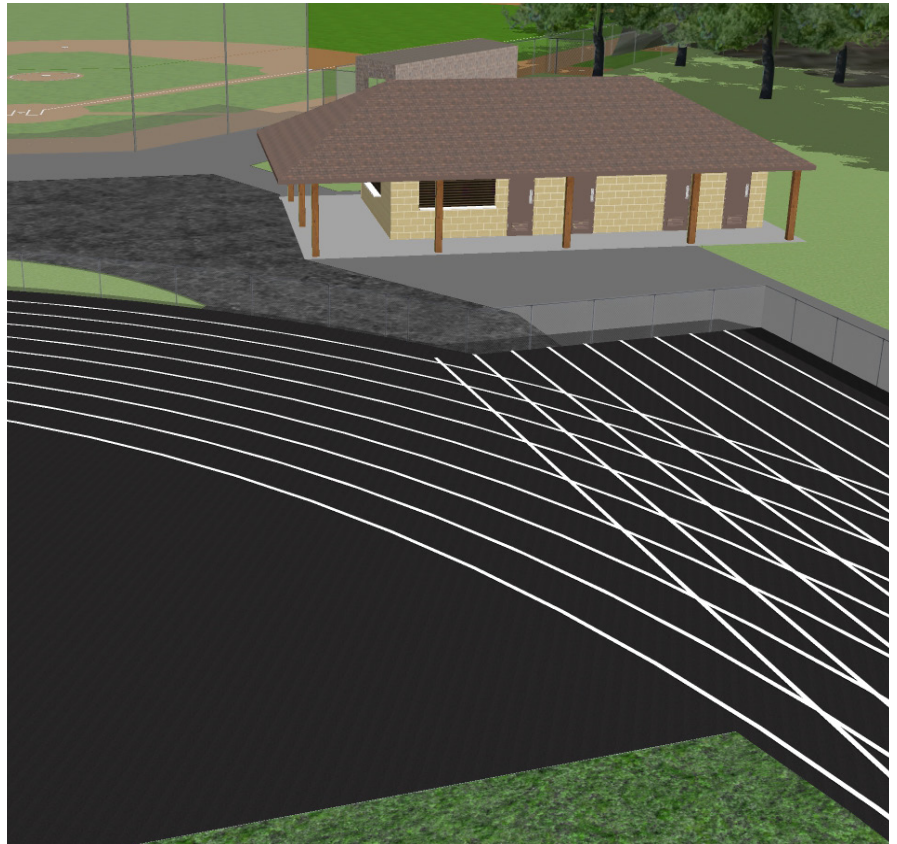

Entry Statement & Concessions

Durand Middle / High School Athletic Facility

The entry statement serves as the focal point to the outdoor athletic complex that harmoniously ties all the amenities of the site together. The hard surface areas and structural components provide ample room for donor recognition and outdoor athletic achievements. The ticket window provides adequate service for spectator accessibility and accelerates access into the athletic facility.

Bleacher & Press Box

Durand Middle / High School Athletic Facility

Synthetic Turf & Running Track

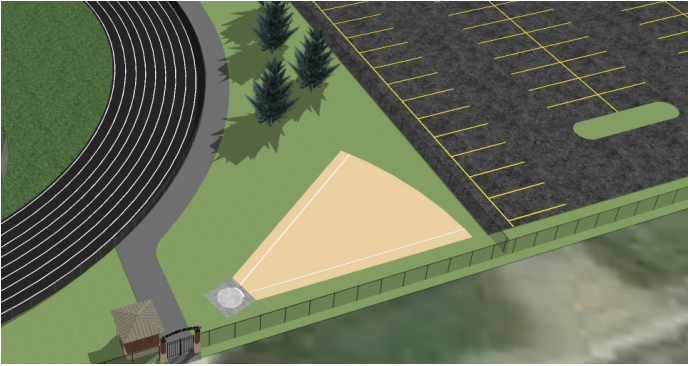

Durand Middle / High School Athletic Facility

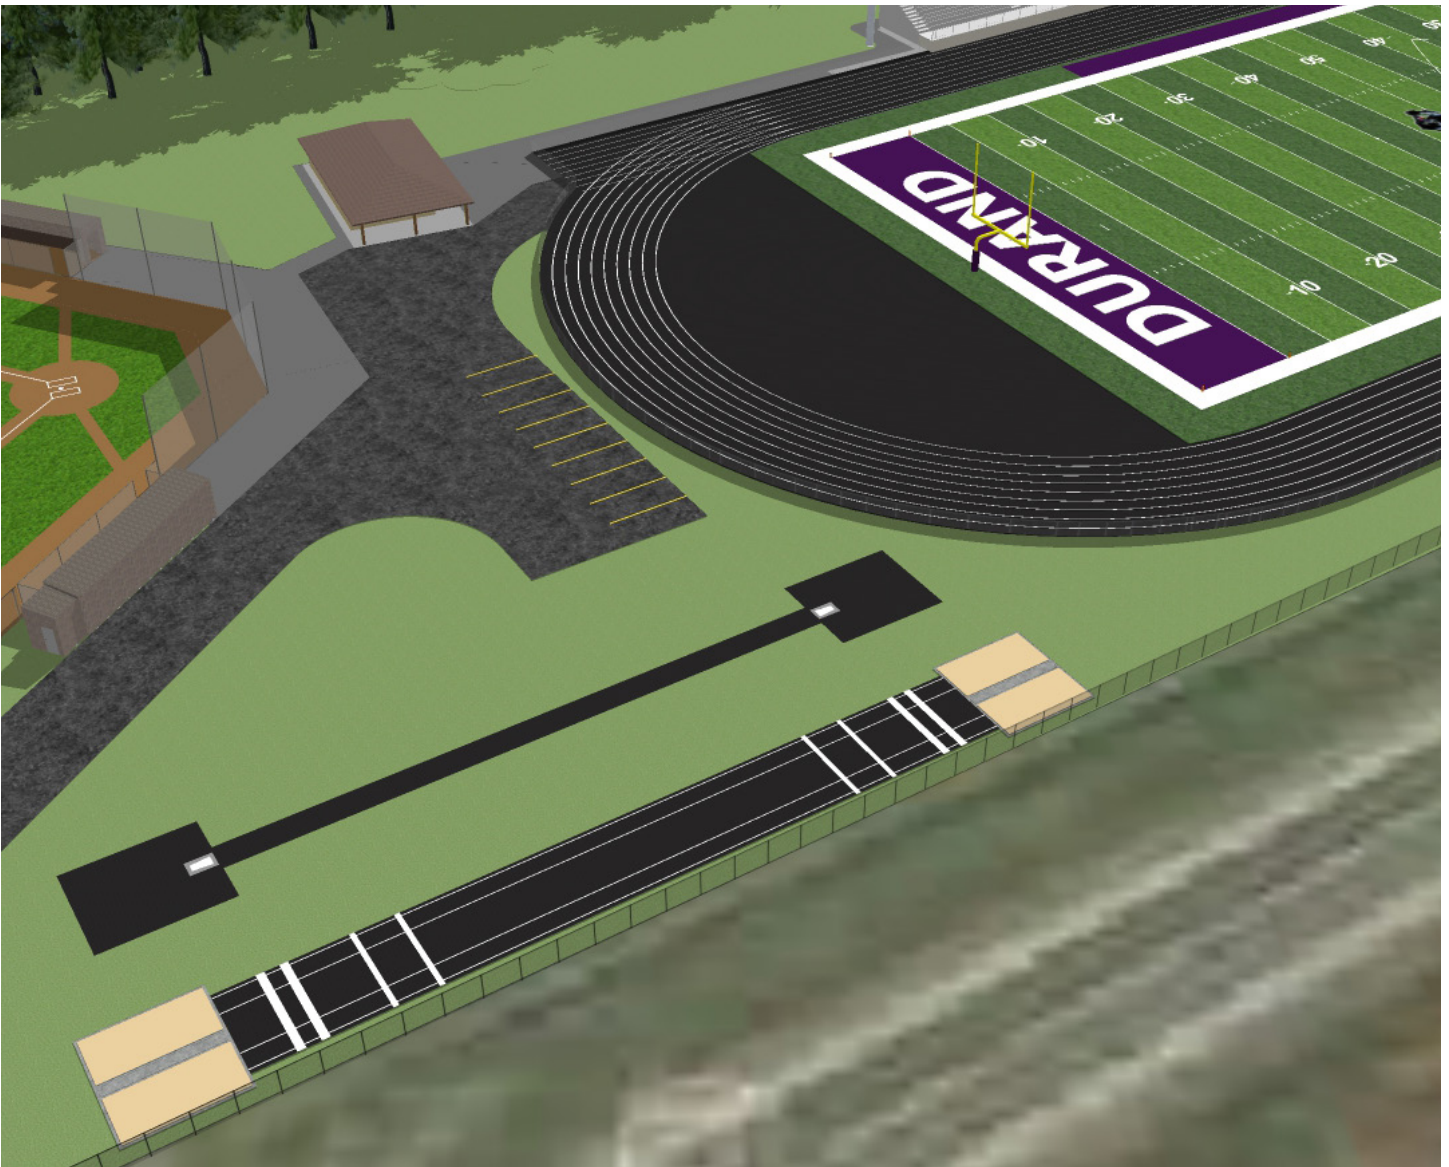

The new running track and synthetic turf football field will significantly improve the aesthetics and playability of the site, making it an enjoyable experience for players and spectators. The improvements to these site amenities will allow for safer use and play over the coming years.

Field Events

Durand Middle / High School Athletic Facility

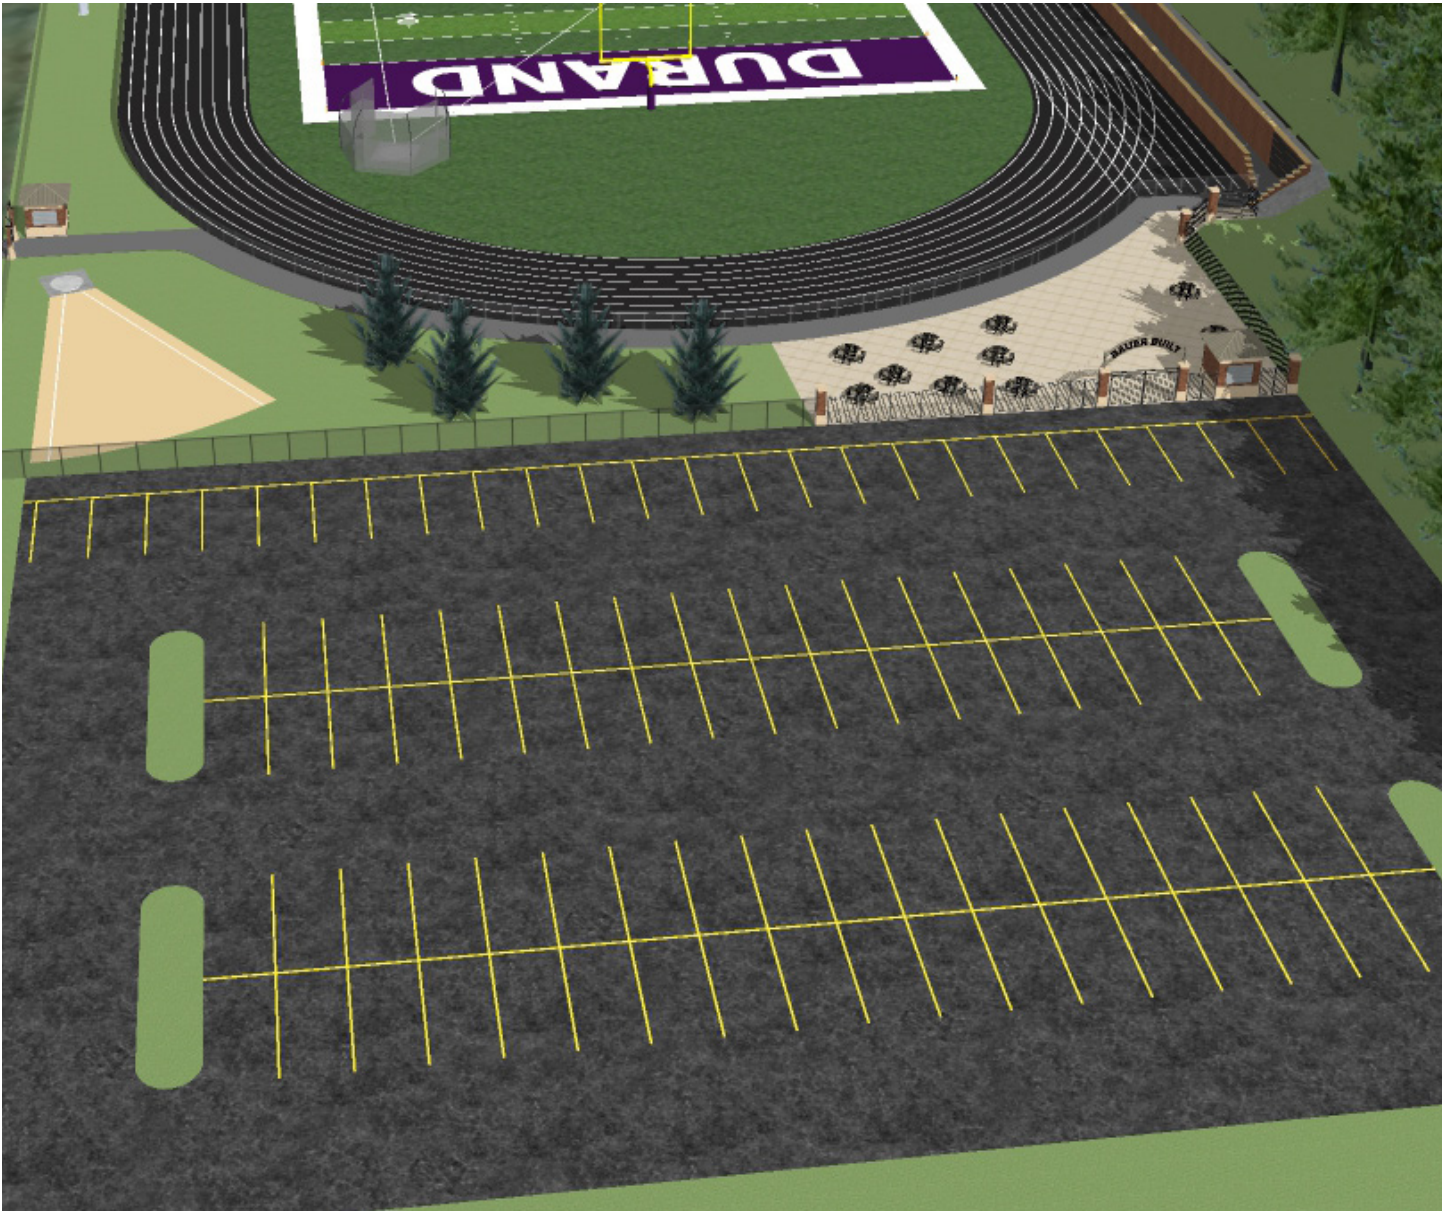

Improved layout of shot-put/discus will provide safer throwing areas for practice and competitions. The triple jump/long jump will be relocated and expanded to two runways, which will shorten the duration of the jumping events during competitions.

Parking Lot

Durand Middle / High School Athletic Facility

The parking lot will aid in centralizing the majority of the parking to a specific area. The layout of the parking lot will promote improved vehicular/pedestrian circulation and safety. The lot will serve as parking for athletes, coaches, and visitors during practice and events. The parking lot will replace the existing tennis courts on site. The tennis courts will be removed from this site and relocated to the high school as a separate project.

Fundraising Goals

Diamond Donor Level

\$100,000 and up

Gold Donor Level

\$50,000-\$99,999

Silver Donor Level

\$25,000-\$49,999

Bronze Donor Level

\$10,000-\$24,999

Purple Donor Level

\$5,000-\$9,999

Panther Donor Level

\$1,000-\$4,999
